

Rosebath on 6 shafts

Take some patterns from here to your rosebath weaves and innovate more. Myriad number of different patterns can be woven with a 6-shaft rosebath. The length of the pattern weft floats do not become too long. Use floating selvages to have neat edges. ▶

WARP FOR POPPANAS

The warp 6-ply. Cotton Twine "Liina", tex 30x6,
1 kg = approx. 5 300 m, unbleached

Warp width 42 cm
the sett 4 ends/cm
number of warp ends 168 + 4
amount the warp yarn needed 33 g/1m

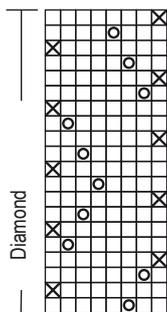

Reed 1 per dent in a 40-dent reed (metric) 40/1
Structure 6-shaft rosebath and tabby

"Poppana" is a cloth woven with poppana stirps

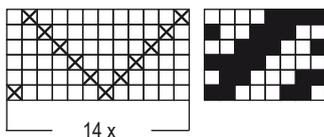

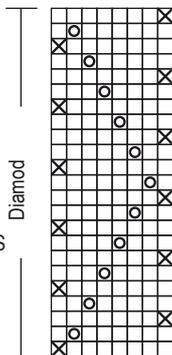

VELVET DIAMONDS

× = poppana
○ = velvet yarn

POPPANA DIAMONDS

× = poppana
○ = poppana

14 x 12 = 168 threads + 4 (2 outmost warp ends are coubled)

Try different kinds of weft yarns. In addition to cut cotton strips (poppana), velvet yarn is a sure choice. We used a rather thin velvet yarn in these patterns.

VELVET DIAMOND Right side

Reverse side

POPPANA DIAMOND Right side

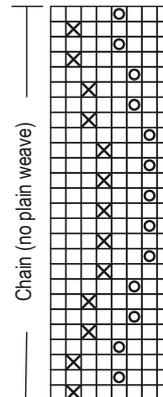

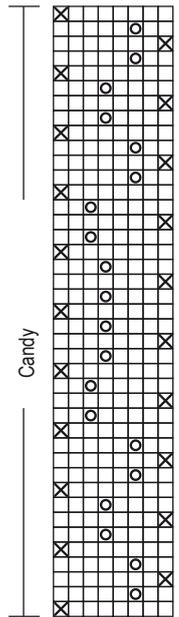

Reverse side

The reverse side motif of the Velvet diamond is woven to the right side of the Poppana diamond. See page 36.

CANDY

X = poppana weft
O = velvet yarn

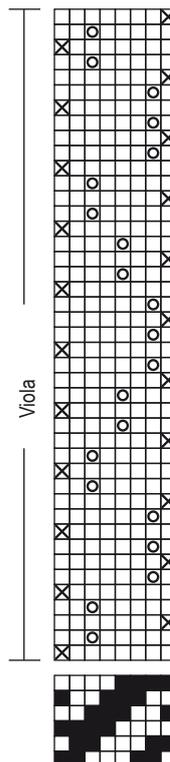

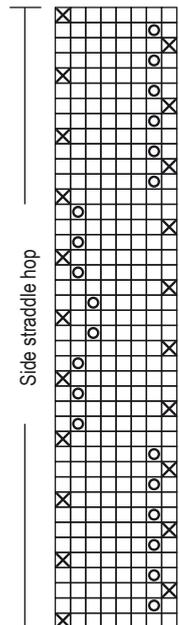

CHAIN

X = poppana weft
colour 1
O = poppana weft
colour 2

SIDE STRADDLE HOP

X = poppana weft
O = velvet yarn weft

VIOLA

X = poppana
O = velvet yarn

123456 (one plain weave weft between every pattern wefts)

1 -> 4
2 -> 5
3 -> 6
4 -> 1
5 -> 2
6 -> 1

If you want to weave the motif from the reverse side to the right side, weave with contrary treadles.
